A Meme's-Eye View of Nonspeech Oral-Motor Exercises

Alan G. Kamhi, Ph.D.¹

The publisher regrets a typographical error in the above article in *Seminars in Speech and Language*, Volume 29, Number 4, 2008, pages 331–338. On page 333, right column, line 15, the sentence reads “And does a nonspeech activity like sticking out the tongue become a speech-facilitating oral motor activity when it is used to help a child produce a / $\exists$ /?”

The sentence should read “And does a nonspeech activity like sticking out the tongue become a speech-facilitating oral motor activity when it is used to help a child produce a / θ /?”
