Stereocontrolled Synthesis of Enantiopure Polyhydroxylated Azetidines via 1,2-Oxazines

Vjekoslav Dekaris, Hans-Ulrich Reissig* *Synlett* **2010**, 42.

The formulas for compounds *anti*-**1b** and **2c** as drawn in Table 1 are wrong. The 4-OBn group in these compounds should be replaced by a OMe group. The formula of **2c** as given in Table 2 is correct. The authors apologize for this mistake.
