Immune-Mediated Encephalopathies with an Emphasis on Paraneoplastic Encephalopathies

Amy A. Pruitt, M.D.¹

The publisher regrets an error in the dosing units of measure in the above article in *Seminars in Neurology*, Volume 31, Number 2, 2011, p. 165. The correct dosing is indicated below.

Rituximab dosage should be 375 mg/m² (meter squared, not millimeter squared)

Cytotoxan dosage should be 750 mg/m² (meter squared, not millimeter squared)
