G. Holz. *New Insights Concerning the Glucose-dependent Insulin Secretagogue Action of Glucagon-like Peptide-1 in Pancreatic β -Cells. Horm Metab Res 2004; 36: 787–794*

1. The author's name must read G. G. Holz, not only G. Holz.
2. On page 788, second column, the first sentence must read:
“From the standpoint of its usefulness as a treatment for type 2 diabetes mellitus, the glucose-dependent insulin secretagogue action of GLP-1 is of therapeutic importance.”
