Appendix e1
Data collection sheet administered before the day of scheduled colonoscopy
Risk factors for inadequate bowel preparation: a validated predictive score.
DATA COLLECTION SHEET
DATE :
1. Patient Code (consecutive number and patient initials):____

2. Age:_____ 3. Sex: ______

4. Weight:_____ 5. Height:_____

6. Comorbidities:
Diabetes Mellitus □ Stroke □ Dementia □ Cirrhosis □ Renal failure □
Other ____________________________________________________________

7. Medication (especially antidepressants and calcium antagonists): ______________________________________________

8. Indication for the examination:____________________

9. Constipation (< 3 bowel movements per week and at least one of the following: straining, hard stools defined as Bristol scale 1 or 2 and incomplete evacuation): yes □ no □

10. First degree relatives with colorectal cancer: yes □ no □

11. Educational level:
▪ Less than high school: yes □ no □

12. Past history of colorectal neoplasia: yes □ no □
   ▪ Type:________________

14. Type of bowel cleansing agent at the index colonoscopy: PEG □ PEG + Asc □ Sodium picosulphate □ Other:_______________
Appendix e2
Data collection sheet administered on the day of the scheduled colonoscopy

Risk factors for inadequate bowel preparation: a validated predictive score.
DATA COLLECTION SHEET
TO BE COMPLETED ON THE DAY OF THE SCHEDULED COLONOSCOPY

Fill in before colonoscopy

1. Patient code:____
2. Ending of bowel preparation (hour) :___
3. Initiation of colonoscopy (hour): _____
4. Compliance: < 75 % □ ≥ 75 % □ 100 % □
5. Taste: bad □ barely tolerable □ good □
6. Willingness to take the same preparation in the future: yes □ no □
7. Problems taking the bowel preparation: none □ some □ many □
8. Adverse effects: nausea □ vomiting □ bloating □ abdominal pain □

Fill in after colonoscopy

9. Boston Bowel Scale Score
Proximal:_______ Transverse:_______ Distal:__________
10. Colon segment reached:________________
11. Withdrawal time (excluding polypectomy or biopsy time): ___________
