**Fig. 1S** Hematoxylin and eosin (HE), Masson’s Trichrome and PAS stained sections of airway wall in asthmatic mice. HE staining (A-E): (A) Control group, (B) OVA group, (C-D) AST group, (E) montelukast group. Masson’s Trichrome staining (F-J): (F) Control group, (G) OVA group, (H-I) AST group, (J) montelukast group. PAS Staining (K-O): (K) Control group, (L) OVA group, (M-N) AST group, (O) montelukast group. Bars indicate 10 μm.
