Why EFSUMB needs you

- To promote ultrasound in large and lower middle income countries
- To implement good quality practice
- To provide ultrasound education
- To promote research
- To reach the public and politicians to implement investment in ultrasound within health systems
- For National Society nominations of leaders for EFSUMB and WFUMB committees
- To endorse projects to improve ultrasound in Europe
- To propose future direction and accountability for EFSUMB policies
- To bring good clinical practice to the patient – our customer!
