- Do you share our vision of an European Ultrasound Community?
- What have we achieved?
- Where have we failed to satisfy our members?
- Which of our projects do you think are beneficial? Guidelines? Webinars? ECB? Other?
- How can we better meet our members' future needs?
- How should we improve our communication with members?
- Should we update our constitutional structure?
- Is an organisation of individual members preferable to that of National Societies?
- Are our EUROSON Congresses in need of a radical rethink?

This is your opportunity to influence positive change in EFSUMB. A Task and Feedback Group has been established to consider your responses and make proposals to the Board of Delegates at EUROSON 2019 Granada, Spain.
