ERRATUM

In the paper by B.D. Cox et al.: “Effect of adrenaline on plasma vitamin C levels in normal subjects”, Horm.Metab.Res. 6: 234-237 (1974), the correct reading of the administered adrenaline dose is 0.05 μg/kg/min instead of mg/kg/min. This refers to the legends of the Tables and the Figure as well as to line 7 of “Methode”.

NOTICE
Measurements, Models and Noise in Endocrine and Metabolic Systems: A Symposium Summary, by Diana M. Schneider, Ph.D. (MIT) with an Introduction and Concluding Remarks by Eugene Yates, M.D. (University of Southern California) is available without charge from The Kroc Foundation, Department MM, 216 E.
