

**Erratum: Torp-Pedersen S, Bartels EM, Wilhjelm J, Bliddal H. Articular Cartilage Thickness Measured with US is Not as Easy as It Appears: A Systematic Review of Measurement Techniques and Image Interpretation. *Ultraschall in Med* 2010: DOI 10.1055/s-0029-1245386**

In the fourth paragraph of the introduction the wording needed to be corrected. The correct sentence is:  
“In addition to the above, it is well known in other areas of medical US, where accurate measurements are important, that the transducer-near end of a white band is reliable while the transducer-far end cannot be trusted.” The publisher apologizes for this mistake.
