

3-Azidothieno[2,3-*b*]pyridine Thermolysis as a Route to Novel *peri*-Annulated Heterocyclic Derivatives – Benzo(furo)thieno[2,3,4-*ij*]-2,7-naphthyridines

Vladimir K. Vasilin*

Eugeniya A. Kanishcheva

Tatyana A. Stroganova

Gennady D. Krapivin

Synlett 2015, 26, 755.

For the final print and online versions, the compound numbers in refs. 12 and 14 have been corrected to match the schemes and text. In addition, reagent **3** is now mentioned in the text (in the paragraph discussing Scheme 1) and in the experimental section (ref. 12).
