Abstracts of the 41st Annual Meeting of the Society for Neuropediatrics

Peter Weber¹

¹ Division of Neuropediatrics and Developmental Medicine, University Children's Hospital Basel, Switzerland

Neuropediatrics

For the 41th Annual Meeting of the Society for Neuropediatrics, which takes place in Basel from 23th to 26th April, 2015, 138 submissions were accepted for free papers presentations, poster presentations, video sessions, and scientific program sessions. The English abstracts of these submissions are now published in this online supplement of *Neuropediatrics*. The abstracts of free papers (FV01 to FV03) and workshops (WS06, WS07, WS10, and WS12) are sorted by the topics "Developmental Neurology", "Neurometabolic or Neurodegenerative Disorders," and "Varia," which refer to the respective sessions of the conference. The abstracts of poster and video presentations are included in Poster Sessions (PS01 and PS02) and Video Sessions (VS01), which contain a range of topics on child neurology.

Note that the numbering is not consistent with the numbering used in the program of the conference. The abstracts can also be accessed through the "List of Authors"—an online author index—which will be available at: <https://www.thieme-connect.com/products/ejournals/issue/10.1055/s-005-28977> and will assist the reader to

get automatically directed to the respective abstract. On behalf of the Gesellschaft für Neuropädiatrie, I thank all colleagues for the submission of their abstracts and the publisher, Georg Thieme Verlag KG, for making our scientific contributions available to the international readership, so that they can receive a broader attention, beyond the participants of the conference.

Please cite the individual abstracts in the following format: Author names. Abstract title. In: 41st Annual Meeting of the Society for Neuropediatrics; April 23–26, 2015; Basel, Switzerland: Available at: <https://www.thieme-connect.com/products/ejournals/issue/10.1055/s-005-28977>. *Neuropediatrics* 2015;46(Suppl 1):Abstract Number.
