

Vienna 2018

62nd Annual Meeting

Dear colleagues, Dear friends

we are delighted to welcome you at the 62nd Annual Meeting of the Society of Thrombosis and Haemostasis Research (GTH), which takes place in Vienna from February 20, 2018 until February 23, 2018.

“Thrombosis and Haemostasis Research – the wheel keeps on turning”. The motto of the conference pays tribute to the tremendous and everlasting progress in thrombosis and haemostasis research over the last years and in the years to come. An array of novel antithrombotic drugs and the revolutionary achievements in hemophilia treatment are only two examples for what has been happening in our field just recently.

Colleagues from around the world meet in Vienna and discuss recent advances both in clinical and in basic research. Our program consists of traditional plenary and state-of-the-art lectures and oral and poster presentations, but also includes formats, which allow a more intense interaction between audience and presenter.

“The wheel keeps on turning” also refers to a Viennese landmark, das “Riesenrad” (“the Giant Ferris Wheel” covers the front page of the journal), located in close proximity to the conference venue.

Do not miss a ride on the “Giant Ferris Wheel”, which will give you not only a spectacular view of the city of Vienna but weather permitting of the Alps in the West to the Carpathian Mountains in the East.

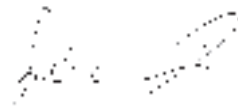

The congress language is English to acknowledge the increasing number of attendees and lecturers from all over the world.

We very much hope that you have an informative and enjoyable stay in Vienna.

Yours Sincerely,

Paul Alexander Kyrle
Congress president

Sabine Eichinger-Hasenauer
Congress president

Univ.-Prof. Dr. Sabine Eichinger-Hasenauer, Vienna, Austria

Univ.-Prof. Dr. Paul A. Kyrle, Vienna, Austria
