ERRATUM

The authors would like to update a sentence in the “Discussion” section of the above article published in the *European Journal of Dentistry*, Volume 13, Issue 2, 2019 (DOI: 10.1055/s-0039-1688733). The sentence has been revised by the authors to the following:

In Discussion, paragraph 5, sentence 5 should read: This contrasts with the existing view that the use of Ca(OH)₂ in regenerative endodontics may be questionable because of the potential toxicity to human cells.²⁹
