Errata

A Short, Novel Approach to 2,3,4a,5-Tetrahydro-1*H*-pyrazino[1,2-*a*]quinoline-4,6-diones

Ronald C. Bernotas* Synlett, 2004, 2165.

The compound numbers in Scheme 3 were incorrectly represented. The correct Scheme 3 is:

$$\begin{array}{c} \text{OH} \\ \text{F} \\ \text{CO}_2\text{Et} \\ \text{IDa } X = H \ (71\%) \\ \text{I0b } X = 3\text{-F} \ (69\%) \\ \text{I0c } X = 4\text{-Cl} \ (69\%) \\ \text{I0c } X = 4\text{-Cl} \ (69\%) \\ \text{I0d } X = 4\text{-OMe} \ (60\%) \\ \text{I1b } X = 3\text{-F} \ (81\%) \\ \text{I1c } X = 4\text{-Cl} \ (72\%) \\ \text{I1d } X = 4\text{-OMe} \ (63\%) \\ \text{I1d } X$$

The editorial office apologizes for this error.
