Diastereoselective Epoxidation of Allylic Diols Derived from Baylis–Hillman Adducts

Ricardo S. Porto, Mario L. A. A. Vasconcellos, Elizete Ventura, Fernando Coelho* *Synthesis* **2005**, 2297.

The drawings for Figures 1 and 2 were inadvertently exchanged. The correct figures are shown below.

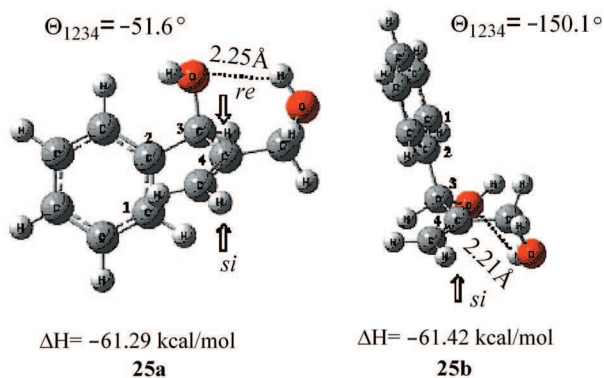

Figure 1 Minimal energy conformations for allylic diol **25**

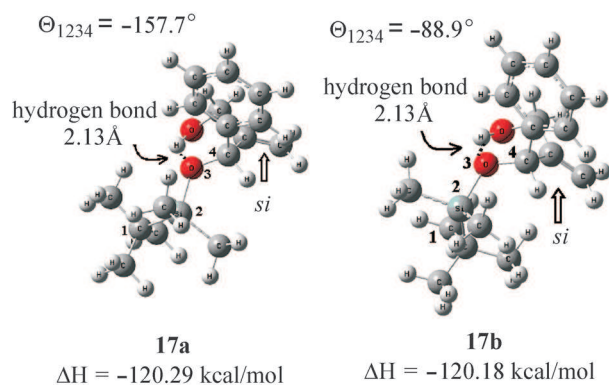

Figure 2 Minimized conformations for the silylated allylic diol **17**
