Copper-Catalyzed Sulfonylation of Arylboronic Acids in Ionic Liquids

M. Lakshmi Kantam,* B. Neelima, B. Sreedhar, Rajashree Chakravarti *Synlett* **2008**, 1455.

In Table 2, entry 7, the R group was given as Me but should instead be *p*-Tol. The correct entry is shown below.

Table 2 Cross-Coupling Reaction between Various Arylboronic Acids and Sulfinates^a

Entry	Arylboronic acid	R	Product	Isolated yield (%)
7		<i>p</i> -Tol		70

^a Reaction conditions: Cu(OAc)₂ (0.013 g, 10 mol%), [bmim][OTf] (1 mL), arylboronic acid (1 mmol), sodium sulfinate salt (1 mmol), r.t. for 12 h.

^b Isolated yield after fifth cycle.
